

About Us

Dr. Blancaflor has been a dentist in Seattle since 2018. She succeeded her predecessor, Dr. David Arndt, who started practicing dentistry on Queen Anne in 1994. We thank the many patients who have been with us for over 50 years. This is a tribute to our quality of service and patient care.

We continue to provide this care with the latest technology available. We offer for your comfort, pillows and blankets during treatment, television or headphones with music if desired, follow up phone calls after difficult procedures, and weekend coverage for dental emergencies. During regular office hours, patients with dental emergencies will be seen the same day. All of this is part of our dedication to quality care for our patients.
